

## DECLARATION OF CONSCIENCE

## INDEPENDENCE, FREEDOM, FAITH, SOVEREIGNTY, AUTARKY & PEACE

I, Jan of the family Lohfeldt, a conscious people, sovereign and of sound mind, determined will, clear conscience, of the oriental Rat Clan, the occidental Libra quality and Mesoamerican Yellow Overtone Warrior frequency, passing through this earthly plane of existence, a quest of questions, seeking to improve my life and the life of others, living by the one law of "do no harm" and the golden rule, herewith make the following declaration to the world commonly known as earth, my current abode :

During October 1972 my biological parents, unaware of the consequences, followed a statutory requirement and registered my birth with the German office of Einwohnermeldeamt, thus creating a person or subject citizen aka Staatsbuerger, pledging my future sweat equity and tax revenue, serving as surety and collateral for international loans the German government receives from a privately owned central bank.

The same process, not due to physical birth of a living man but the legal berth of a resident, creating another treasury direct account (TDA), took place in South Africa, forever perpetuating the global debt slavery system, never to be paid back, without any incentive to settle, thus rendering all people permanent debtors void of recourse and remedy.

The same governments also placed themselves into the position of trustees, safeguarding my fair share and equal portion of a territory on earth I call my home during my stay, the estate and dominion granted to us by a creator, God, Great Spirit in the Sky, including, but not limited to, all mineral deposits, marine life, farm land and products and produce of nature.

This Declaration of Conscience nullifies any registration, lacking full disclosure to my biological parents at the time and without my consent, the absence of a lawful contract retroactively renders all actions fraudulent.

Registration into the statutory system was a mistake by my biological parents, I am here to correct the nistake and rightfully take control of what is due to me, without fear or favour, without ill-intent or malice.

I am herewith claiming my estate and do no longer consent to be governed

Maxim :

# DECLARATION OF CONSCIENCE

111110000

THE WORD IS MY VOICE

I have emancipated, corrected my status and rescinded citizenship, I am of lawful age, responsible and accountable to administer my own affairs, I am conscious, reasonable, resourceful and subsequently capable of claiming my estate, doing my part maintaining the well-being of any territory I occupy, without loss, harm or greed.

I am confident and competent to govern myself, thus I no longer consent to be governed, I respect all men and women, nature and all life on earth, I peacefully coexist and because I am still a man, I can only try my best to maintain my high standards. Should I transgress or violate my mandate to steward the earth or its inhabitants, I shall face a jury of my peers, seeking remedy not retaliation, restorative justice, not punitive.

My morals, ethics and values are plain and simple, be respectful, kind, humble and of service to others.

I am a living man, a people of Germanic descent, sojourning the world, a peacemaker and justice seeker, neither peace nor justice live inside the statutory system governing the earth, for it is a dead and debt system, legislated and constituted and codified, all remedies and rights sought or provided only exist on paper.

## " Legal is the undoing of God's law "

## " A Right is given, when Freedom is taken "

Until such time governments return to their lawful seats, provide answers to questions, I shall govern myself accordingly, guided by common sense, nature and the source of sound permeating through the cosmos.

At a time when the BAR legal system, the courts and their judges, the banking cartels and multi-national corporations dictate all economic and ecological policies, it is the duty of an honourable man to embody a conscience, take responsibility, seeding new societies for the children of today to thrive in the future, establish and manifest alternative systems to render the old one obsolete and redundant.

On this day of the inaccurate Gregorian Calendar, the 4th of July 2022 and Mayan long count 19.0.9.12.2 in the presence of 4 living people, this declaration is my truth sealed and spoken

THE WORLD IS SOUND

Greetings governments, public servants, treasurers of the peoples' wealth, previous administrators of collective resources or trustees of our private estates

2012 was the genesis of my journey into discovery, emancipation and self-determination, exposing, inter alia, the fraudulent securitization scheme, mortgage scam and the treasonous complicity of the judiciary. After confirming my worst allegations, experiencing a statutory system without recourse, the only option was to extract myself from it in every possible way.

In 2013 on the 4th July I recorded myself with the Republic of Good Hope (RGH), an independent sovereign Nation established by declaration in 2010. I have since only used RGH documentation, such as a common law ID, a law of the land travel card and private number plates furnished with RGH record numbers.

In 2014, as part of my ongoing process involving and trying to restore my home, working with New Earth Nations, I made a declaration and a claim to unhindered land use by way of land repatriation and public participation, documented and publicized in local newspapers and the RSA government gazette.

The declaration and perfected claim was notarized by notary public Rhiannon Thomas on 11th September 2014, certified copies were delivered to the Cape Town and Pretoria Deeds Office on 29th September and further copies sent to the office of the RSA Presidency, Department of International Relation and the Ministry of Defence on 24th November 2014.

In 2016 I obtained a world passport, issued by World Service Authority (WSA), issued to Jan a living people, thus my own private property, unlike any other state issued passport, issued to a subject citizen, both property of the issuing authority. It is the only passport I own and use for travel.

On 8th March 2018 I made contact via email, involving the United Nations, the World Bank, RSA Home Affairs Office and the German Embassy to South Africa, the communication contained all of the above documentation attached. On 16th May 2018 I received a response from Kirsten Hardt.

Proof thereof is attached to this communication, furthermore visit the following websites and links :

#### >>> https://www.republicofgoodhope.com/rescind-citizenship-status-correction/ <<<

The purpose of this communication is to inform all statutory agents, foreign jurisdiction governments, interested parties and the people of the world, delivering a final and complete declaration in my own words and give instruction to transfer my fair share in God's granted dominion over the earth to me, thus replacing and relieving any governmental agency as trustee.

I am claiming what was lawfully assigned to me, to steward the wealth and treasures of the earth with a respectful conscience, absolute responsibility and accountability. To utilize it wisely, only to support my humble lifestyle, build shelter and provide food for myself and people close to me.

" The analysis, completed by <u>Environmental Business International (EBI)</u> and originally published in the fall 2020 edition of <u>Climate Change Business Journal</u> (CCBJ), estimates the economic value of Earth, **without humans**, equals \$38 quadrillion dollars. One quadrillion is equivalent to 1,000 trillion."

Apparently all of earth is worth some estimated \$20-40 Quadrillion and each man or woman's share is between \$3-5 million. Therefore I am instructing the treasuries and high offices of the current nation states, to transfer the amount of R65 million (\$4 million) into the following bank account :

I am aware no bank account, bank and all its FIAT currencies were, are or will ever be owned by the people of the earth. Nevertheless, until such time we abandon the Central or Reserve Bank model, paradoxically its currency enables the purchase of goods & services to build a better world.

Alternatively facilitate the collection of 148 kilogram gold, calculated average mean between 1972 and today at \$27000 p/kg to the value of \$4 million. Managed, administered and for safekeeping without malfeasance or private gain, but to improve life on earth. Once received I shall make a binding oath, speak truth to my words and be in service to the earth and mankind.

My work as an advocate of the people and common law activator will continue, becoming a trustee for and exercise true custodianship of the earth, does not equate to less work, but much rather the work only begins, find a project plan attached to this communication.

In resonance of the current situation on earth, this is the way.

If you have any questions, please do not hesitate to make contact,

Truthfully,

Jan a people of the family Lohfeldt P.O. Box 31 6750 Barrydale South Africa janlohfeldt@proton.me

## Proposed Plan for the Allocation and Use of the Estate under Custodianship of Jan a people

The plan is simple, like most things in nature, if observing natural law. An estimated R15 - 20 million to be used for the following :

- 1. pay out an existing farmer and secure a land parcel between 200 to 1000 hectares
- 2. rehabilitate the land and release from deed registry using land repatriation process
- 3. invite skilled and professional experts onto the land to live freely, no rent or levies
- 4. setup a traditional bakery, start growing original and native grains
- 5. establish natural fish breeding ponds, tilapia or trout
- 6. herbal & plant medicine gardens, i.e. sutherlandia, artemisia, cannabis, etc
- 7. a minimum of 100 beehives and honey production
- 8. sufficient hemp production for textile, building material, fuel and food supplements
- 9. free range chicken, sheep, goats and some other husbandry
- 10. craft beer brewery and distillery for high quality small batch output
- 11. diesel fuel production from plastic and organic waste
- 12. all excess products and produce made available at cooperative market
- 13. budget for maintenance of implements, machines and conveyances
- 14. healing, health and rehabilitation centre
- 15. skill training workshop for electrics, woodwork, plumbing, mechanics, computer

I have gathered plenty of experience, connected with a great number of people fitting the above profile, I am confident to establish a productive community within 18-24 months. Due to the unpredictable nature of nature and the world we currently experience, I don't think or believe in volumes and pages of documents, studies, proposals, business plans or any detailed prognosis will make a difference to the outcome. After all it is dedication and discipline driving people to produce and propel themselves, motivation equal manifestation.

Truthfully,

greetings people of the world,

this email serves to inform the relevant department and institutions, i.e. german consulate south africa, home affairs, united nations office south africa and world bank and/or give advice as to how to proceed, considering the information and declarationbelow/attached, to become stateless and revoke all registration with any state, country or nation, thus rescinding current status of 'german citizen' and 'south african resident', subsequently obtaining status 'stateless'.

through a series of ongoing investigations and research, it has become evident that once sovereign nations are now registered privately owned corporations, trading as such on various stock exchanges in a casino like fashion, not for the benefit of the people orcitizens alike; no central or reserve bank is collectively owned by the people, nor are they controlled by any respective government (except for less than a handful small countries); each nation's debt exceeds its budget or GDP by a huge margin, in some case more than double, never to be paid back; the current system is not based on the will of the people and every attempt to seek remedy, redress or recourse, i.e. filing with many of the highest courts in the world, is stifled, ignored or sabotaged, because all judges acting as agents for the banks; see constitutional court cases CCT 19/14, CCT 218/14, CCT 225/15, CCT 78/16, all dismissed in its entirety, although unlawfully and erroneously, writ of error included, please see :

for records and history, furthermore see attached supporting documents.

i, as a people, a living soul living in my body and walking the earth, home to all of us, can no longer consciously, knowingly and/or conscientiously partake, support or be associated with any of the current 196 countries on earth, thus my express wish anddecision is to be free from any imposed and involuntary servitude, whether by way of registration shortly after our human birth or subsequent tacit consent by simply taking on an identity or person; i will forfeit any benefits from any state for true freedom from debt slavery, until such time maybe, when the corporate empires have fallen and peace and prosperity returns to the people; i am not forfeiting any treasury direct account(s) set up in my legal name, by various states and banking cartels, held at their treasuries, central banks or revenue offices;

although established fraudulently and with deceit, these accounts and the balance they contain could assist the people in building a better world once access is secured; nor do i cede any right or freedom to voluntary contract with whoever and whatever i wish to do so, i am still sojourning the world exploring its vast multitude and plethora of opportunities, for as long as i do no harm and cause no loss and/or impede thefreedom of others.

i have done everything possible to demonstrate my standing, i.e. recorded myself as a living man with the republic of good hope, a global common law society, and have been using their documents in place of RSA ID book and drivers licence successfully in the last 4 years; furthermore i am a high contracting party to the new earth nation treaty :

>>> https://newearthnation.org/the-new-earth-treaty/ <<<

made a declaration to establish a non-territorial micro-nation, which was served on ministry of defence, foreign affairs and the presidency; i'm also in possession of a world passport, issued by the world service authority, its founder gary davis to become the first man to voluntarily renounce citizenship and nationality, and by doing so, setting a precedent for others to follow;

my suggestion is, to return the german passport, which never belonged to me to begin with, but the issuing authority, issued only to a legal person/name and to return all RSA documents, i.e. ID book, drivers licence and permanent residency to the relevant departments; at the same time for the UN to endorse my world passport, adhering to their original charters, assisting me to travel freely; this could be accompanied by a short note from the UN, clarifying my status as stateless and subsequently affirming unhindered freedom of movement.

the republic of good hope did print a small batch of passports a few years ago, some of its members successfully crossing southern african land borders, although sometimes involving lengthy diplomatic conversations; other nations have done so many years ago, like the haudenosaunee and iroquois in the late 1920's, travelling without any problems globally on their own passports, rediscovering this right very recently :

# >>> <u>https://www.uslaxmagazine.com/fuel/international/haudenosaunee-use-own-passports-stand-proud-to-represent-nation-at-world-cup</u> <<<

the 'aboriginal' passport (aboriginal is another derogatory term, meaning non-original, but due to lack of knowledge the word is still taught and used, the dark skinned people of australia should be referred to as 'originees') initiated by michael mansell in the 1980's, has recently undergone a revamp too :

## >>> <u>http://apg.org.au/passports.php</u> <<<

if you think this is a rather unusual request and/or legally AND lawfully not possibly, please provide proof thereof, i.e. what law or which charter forces me to be subject to any nation, state and/or obtain a certain citizenship ?

i recall some german statutory 'law' listing statelessness as a criminal offence, in which case the burden of proof is with the german government, as per maxim " who claims, proves " and provide evidence how that particular act applies to me as aprivate man;

the only state i wish to live in from now on forth is a state of mind;

the attached files highlight some sections relevant to my claim like :

## article 15 of the universal declaration of human rights reads :

1. Everyone has the right to a nationality.

2. No one shall be arbitrarily deprived of his nationality nor denied the right to change his nationality.

if everyone has got the right to a nationality, does this imply we are free to chose or make use of that right ? do i have a right or freedom to be without nationality ? is this an enforceable right ? am i forced to have a nationality ? who grants such right ? do i have the freedom to be a native or national of the earth ?

if i have a right (granted or not) to change my nationality, can i change it to 'without nationality', i.e. give it up voluntarily ?

## article 2 from the declaration on the rights of indigenous peoples :

Indigenous peoples and individuals are free and equal to all other peoples and individuals and have the right to be free from any kind of discrimination, in the exercise of their rights, in particular that based on their indigenous origin or identity.

the very term 'indigenous' is a label created by so-called world leaders, not far from an insult or the word 'indigent' (poor, needy), i am not indigenous, i am a native, a people or national, part of a nation of people; tracing my biological ancestry, somewhere in central europe, before its corporatization, i am a descendent of the marcomanni, alemanni, franks, angles or saxons, native to that particular region but not bound to it.

## section 21 of the bill of rights : freedom of movement and residence

- (1) Everyone has the right to freedom of movement.
- (2) Everyone has the right to leave the Republic.

this particular section i've pointed out to prosecutors, magistrates and peace officers, since their constitution (the RSA constitution also knows as act 108 of 1996) even makes provision for my claim, i have left their republic (RSA) and entered another republic, the republic of good hope, by my free will, freedom of association and an unalienable right to self-determination; i do remain on the land commonly known as southern africa.

interestingly the UN is now promoting global citizenship, although in a very different context, i need to reiterate here, i can cannot be a citizen, much rather do i have a citizen, courtesy of the corporate government, allocated to me; i am a people, a living man; in addition the UN embarked on a mission to tackle and deal with the alleged problem of stateless people on the planet, currently ca. 12 million, in other words being stateless isn't exactly a rare condition.

lastly but not finally i would like to draw your attention to a 1985 letter by state senator wayne stump with regards to certain freemen, their status, the right to travel freely and as he states " properly rescinded contracts " (see attached)

in the famous words of justice luis d. brandeis, who, ironically sat on the very table with benjamin freedman and woodrow wilson, on the 23rd of december 1913, when the federal reserve act was signed into law, thus enslaving the better part of the world to a fraudulent FIAT money system;

"Our government... teaches the whole people by its example. If the government becomes the lawbreaker, it breeds contempt for law; it invites every man to become a law unto himself; it invites anarchy."

anarchy meaning nothing but 'an archon' or 'without a leader', which, as long as no harm is done, isn't necessarily undesirable, especially when all leaders, emperors, kings and queens, come and gone, have failed their duty and the people as a whole, here a zen proverb comes to mind :

" in a successful country, the king serves its people "

i'm available to participate in any dialogue and/or arrange for a physical meeting, regardless what future communication,

please call me jan, not mr lohfeldt, thank you,

## WESTERN CAPE WES-KAAP

## CLAIM OF RIGHT TO UNHINDERED AND UNINTERRUPTED USE OF THE PARCEL OF LAND IDENTIFIED UNDER TITLE ERF/No. 14738, FISH HOEK, IN THE CAPE TOWN DEEDS REGISTRY

I, Jan of the family Lohfeldt, being of sound mind, over the age of 21 years, have first-hand knowledge of the facts stated herein.

We are an inhabitant of the land identified under Title Erf/No. T14738, Fish Hoek, in the Cape Town Deeds Registry.

By the very fact that We are part of the Creator source who created all land, We indisputably possess the inherent sovereign right to free unhindered and uninterrupted use of a piece of land held free and clear for the purpose of making a home, raising children and providing a fully self-sustainable existence.

We also derive Our sovereign right to this piece of land by virtue of the acts of aggression and the fraud perpetrated upon Us, the people, animals and Mother Earth, through the systems of slavery owned and controlled by corporate forces carrying many names, but represented chiefly by the entity masquerading as the representative of the people "The Republic of South Africa" in collaboration with corporate Private banking systems and other entities, both national and foreign. The acts of collusion and fraud constitute per se a breach of any eventual trust, and collapse of legitimate, if not lawful claim.

We hereby declares its peace with all of the men, women and all animals on our planet earth, and Our intention to honour all other living creatures equal rights to finding a peaceful abode on the planet.

According to these aims and purposes, we claim all right title and interest in the land identified under Title Erf/No. 14738, Fish Hoek, in the Cape Town Deeds Registry, with the intention of promoting peace, prosperity and happiness for mankind and planet earth, shall never participate in causing harm against our fellow brothers and sisters, accepting full liability in all areas of life.

Duly signed and represented on the date of 8th September 2014, Autarky Eleven.

Providence of the Creator on Planet Earth.

Jan: A people of the family Lohfeldt, A Private Divine Trust, an Ambassador in the Providence of the Creator on Planet Earth; Sovereign of Our own Court of Record, Steward and Guardian of the Planet.

## Within the Pure Trust Jurisdiction of New Earth Nation, by these two mouths the matter is established.

NOTE : above published by mistake, not part of notice, government shaming itself, thank you !!!
